Experienced Web Developer with +10 years of expertise in crafting responsive websites. Proficient in HTML, TailwindCSS, JavaScript, and modern frameworks. Skilled in optimizing web performance and user interfaces. Completed over 100+ projects, collaborating closely with UX/UI designers to deliver high-quality digital solutions.

## Employment

**Frontend Developer at Grune Inc.** May 2019 — Present

I've crafted responsive web applications using HTML, Tailwind CSS, and JavaScript for 5+ years. I've transformed mockups into interactive, user-friendly pages. I optimize performance and ensure cross-browser compatibility.

**Project Manager at ASANKA** Sept 2018 — April 2019

I managed web development projects, led cross-functional teams, and developed responsive websites. I coordinated with stakeholders, set project milestones, and ensured adherence to best practices and client specifications.

**Web Developer at ASANKA** Sept 2014 — August 2018

as Junior Full Stack Web Developer with proficiency in PHP and MySQL. Experienced in building dynamic web applications and managing database interactions. Skilled in front-end development with HTML, CSS, and JavaScript.
